SOLARBRIGHT® THE SKYLIGHT WITHOUT EQUAL

NEW 2014 RELEASE

The skylight without equal

1300 852 622 www.solarbright.com.au

15YR WARRANTY

How it works...

Advanced optical dome engineered to capture the sunlight and bring it down into the tube, even during low-light hours.

The light travels through an extremely reflective mirror-like tube.

Light enters your home and spreads evenly in the room through triple lens diffuser.

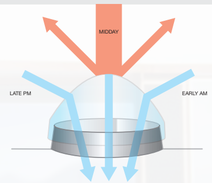
Model	Covering Area	Potential Length
DL250	18m²	7m+
DL400	25m²	10m+

The skylight without equal

Cutting edge technology in daylighting

Raycatcher® Dome

- Registered design active dome
- Captures low light angle
- Minimize midday light intensity
- Crystal clear surface
- Exclusively engineered and designed
- Durable injection moulded design



Seamless Flashing

- Leak-proof roof system
- Seamless injection moulded part
- Designed to suit most roof types
- Engineered with pitch for maximum performance

M-Silver Tube®

- Durable Solid Aluminium - not laminated polymer
- Transmits pure white light
- Highest reflectivity at low sun-angle
- It will not yellow, crack or peel after prolonged UV Exposure
- 15 year warranty

Optical Diffusion System

- Registered Micro-Prism design
- Unique triple layer diffuser kit
- Blocks harmful UV transmission
- Advanced Fresnel lens for optimum performance

Performance, quality plus choice

The choice is yours...

SolarBright daylighting systems give you exceptional performance plus a unique range of functional options.

Diffusers

Prismax®
Most widely used diffusion system in the lighting industry. Excellent efficiency in light transmission and glare reduction.

Warm
New and modern diffuser with a matt satin surface which produces a warm and soft light.

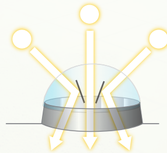
Aurora®
Transmitting and spreading light effectively in any room.

Auroramax®
The new Fresnel micro-optic lens is engineered to transmit pure natural light evenly regardless of the sun angle. AURORAMAX® the ultimate diffusion lens.

Domes

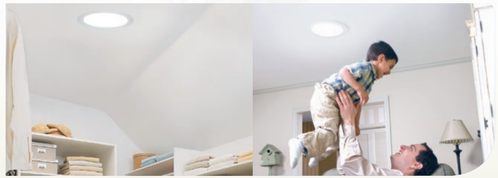
In addition to our revolutionary Raycatcher® your SolarBright skylight comes with other optional domes

Solarlens® Dome
The original dome with optic lens



Butterfly Dome
Clear dome with butterfly lens

Add style & elegance



Stylish Trims

White
Our standard décor trim is the most acquired feature that blends with majority of ceilings.

Glass Overlay
Add class to your diffuser with a glass look feature.

Stainless Steel
Designed to match other Stainless Steel light fixtures on your ceiling.

Glass Eclipse
Designed to add a touch of elegance with a glass look.
